WHO WE ARE:

ACPS ORIS is one of the leading towbar supplier brands in Europe and since its carve-out in 2018 operating independently under the brand name ORIS.

With more than 60 years of experience and over 1,800 employees in 5 factories, ACPS ORIS is today one of Europe's most experienced towbar manufacturers. All leading car manufacturers trust in the innovative towing solutions under the brand name ORIS. This OE expertise is carried over into the demands of the Aftermarket. For the beginning of 2022 ORIS is preparing the launch of the E3 towbar, the first fully electrical retractable towbar for the Aftermarket.

This innovation comes with the patented FIX4BIKE® ball neck design which ACPS ORIS is already offering for hundreds of standard detachable towbar models in OE and for the Aftermarket. With the E3 towbar and the FIX4BIKE® system ACPS ORIS sets a new milestone in the ease of fitting and safety when carrying a bicycle carrier.

AK41 FIX4BIKE® THE NEW PREMIUM STANDARD IN DETACHABLE TOWBARS

HOOKED® ON INNOVATION

HOOKED® ON INNOVATION

WHEN THE LOOK MATTERS – DETACHABLE TOWBARS FROM ORIS

Simply, a great piece of kit! If your customer only occasionally uses the towbar, then a detachable system is the best choice. The handling and function is simple: If the system is not needed, the ball neck can simply be removed. ORIS offers vertical and horizontal systems depending on the individual requirements of the customers vehicle– the available installation space determines which towbar is used.

PRODUCT FEATURES AND BENEFITS:

- Towball neck need only to be attached when in use
- Vehicle aesthetics are retained when the towball neck is removed
- Enhanced ease of use and safety thanks to an automatic locking system
- With FIX4BIKE® function
- The towball neck stores away conveniently in storage bag provided
- Dust cover and gloves included

OUR PREMIUM CHOICE OF VERTICAL DETACHABLE TOWBARS – ORIS AK41 FIX4BIKE® & ORIS AK41

In addition
suitable for
FIX4BIKE®
bike carriers

Optimized material
with higher stiffness

Increased load-bearing
capacity when using a
FIX4BIKE® bicycle carrier

AK 41 FIX4BIKE®:
With FIX4BIKE® feature.

Positioning aid: Stable
fixation in just one click

Ball neck in double T
design for more stability

AK 41 Standard: Without
FIX4BIKE® feature.

BENEFITS FOR WORKSHOP AND RETAIL:

- Highest standard from the OE.
- Complete towbar range with fixed, detachable and fully-electric systems.
- More than 200 applications for high vehicle coverage.
- Efficient and guaranteed to fit the vehicle.

WIDE RANGE OF ACCESSORIES INSIDE THE TOWBAR-SET:

- Towbar
- Ball cap
- Storage bag
- Gloves
- Dust cover
- Set of keys

HORIZONTAL DETACHABLE TOWBARS:

The alternative to the vertically
mounted system, when the available
installation space is very limited due
to less distance to the floor.

Wide range of vehicles-specific
electrical sets (individual or in a
DUO-Set with a towbar):

- 200+ different DUO applications with
FIX4BIKE® towbars
- 500+ different DUO applications with
standard-towbars (fixed & detachable)
